## WORK EXPERIENCE

**MPPKVVCL Indore**  
**(Madhya Pradesh Pashchim Kshetra Vidyut Vitaran Co. Ltd)**  
**Job Type - Permanent Full-Time**  
**Project - Urjas**

Duration : Feb 2015 to Dec 2019  
Role : Software Engineer

Project Description : Started working with Billing application in which uploading manual meter reading to database through script, bill generation in different applications, new connections, then worked in customer grievance services where If customer can log complain and if within time period the issue is not resolved then it will escalate to senior authority level, starting from assistant engineer to Executive engineer up to chief engineer.

Responsibilities – I have worked as a software engineer in billing, transmission and consumer service application using Java, Spring, Spring boot, RESTFul APIs, Oracle Database. Requirement gathering, design, development, deployment, enhancement and bug fixing all are my roles and responsibilities. Mentoring and managing juniors are my responsibility too.

**AOW Solutions****Job Type - Freelance**

Role : Java Developer

Duration : April 2021 – May 2021

Responsibilities : Worked as a independent developer for ecommerce microservice based application. I had worked in order management microservice where I had created several RESTFul APIs using Java, Spring Boot, Spring REST service and Hibernate. Apart from order management I had also worked in report module where I had created service to generate reports in different formats. Customer requirement, Designing, implementation and deployment was my primary responsibilities.

**Mai Online Limited****Job Type - Freelance**

Role : Java Developer

Duration : June 2020 – March 2021

Responsibilities – I have worked as a backend developer with Java, Spring boot, RESTFul APIs. Worked on class and course booking application where I had added new functionalities and modified according to the requirement.

**Mercury****Job Type - Freelance**

Role : Java Developer

Duration : Feb 2020 – May 2020

Worked in disaster management in which I had worked as Java developer, developing backend services as well as frontend design was my primary responsibility. Gathering business requirement, converting into technical solution, daily scrum call and guiding junior developer were my other responsibilities.

**Flower Power****Job Type - Freelance**

Role – Java Developer

Duration : Jan 2020 – Feb 2020

I had worked in a project where most of the task was related to file handling, like create excel file dynamically using Java and convert into pdf using iText library.
