- Involved in analysis and Design of Database.
- GUI Design of Forms and Reports.
- Implemented in Writing client side validation JavaScript.

Project #04:

Title	:	OTS (Order Tracking System)
Client	:	Internal
Role	:	Software Engineer
Team Size	:	4
Duration	:	March 2015 – August 2015
Environment	:	Asp.Net, C#.Net, Framework 4.0, LINQ, SQL Server 2012, Ajax, XML, JQuery, Web Services, JSON Data

Description:

This project is being developed to maintain sales orders and production section of the Firm. It covers the module like order processing, accounting, inventory and payroll.

Reports:

- Net sales flash (Manager wise, MR wise, Area wise, State wise)
- Expired Stock (Area wise, State wise)
- Near Expiry products

Responsibilities:

- Involved in the Analyzing the Requirements.
- Involved in analysis and Design of Database.
- GUI Design of Forms and Reports.
- Implemented in Writing client side validation JavaScript.
- Involved in develop programming logic using C# language

Project #05:

Title	:	eMLearner (www.emlearner.com)
Employer	:	Virinchi Softwares pvt ltd.
Role	:	Requirement Analysis,Database Design,Programmer.
Team Size	:	8
Duration	:	September 2014 - February 2015.
Environment	:	Asp.Net, C#.Net, Framework 4.0, SQL Server 2008R2, Ajax, XML, JQuery, Web Services , App Type : Windows and Web.

Description:

This is a LMS based project including some features of ERP, this project is developed to automate all school activities like Lesson Management, Course Management, Assignments, online exam, collaboration Board, Projects, Notification and Alerts etc.

The LMS feature includes: Lesson Management, Course Management, file Sharing, Project Work management, Alerts and feedbacks etc.

The ERP features includes: Fees Management, Online Payments, Inventory Management, HR Management, Hostel Management, Transport Management

Reports:

- Students Results (Quarter Wise, Half yearly wise, yearly wise, grade wise)
- Attendance (Monthly Basis, Year wise total attendance) with Crystal Reports.

Responsibilities:

- Involved in the Analyzing the Requirements.
- Involved in Design of Database.
- Implemented in Writing client side validation JavaScript.
- Involved in develop programming logic using C# language

There are more projects which I have handled and did not specify here like NCS (National Career Services) window Application, DigiDocs (Web Product to main and validate documents) etc.
