EMPLOYMENT DETAILS

Company:	IDBI Intech Ltd. CBD Belapur, Navi Mumbai
Designation:	Executive - Technology Delivery - Payment Systems
Duration:	Dec 2018 - Present

Key Result Areas:

- Management and customization of middleware applications that are used by IDBI Bank.
- Developed user-friendly applications as per the client's requirement.
- Responsible for the enhancement and optimization of existing code.
- Used SVN as a version control system to manage code.
- Responsible for writing a code in UAT and deploy the same in the production environment after successful code review.
- Involved in the technical discussion with the project manager to finalize a solution.
- Design and developed NACH REST API services for IDBI Bank.
- Responsible for writing customized stored procedures and queries in Oracle Database.

PROJECTS

1) NACH API (Restful Web Services)

Role:	Developer
Technologies Used:	Java, JSP, Bootstrap, Spring Boot, JPA, Oracle
Team Size:	2
Duration:	Apr 2020 - Aug 2020
Client:	IDBI Bank
Description:	These Restful web services are used for getting information about Account Holder, Account Status, PAN details, and Aadhaar Seeding/Deseeding services from NPCI (National Payments Corporation of India). It consists of an interactive user interface from which bank users can easily send a request to NPCI API to get the required account validation and aadhaar information. These web services can be easily integrated with other bank applications.

2) Automation of SWIFT Messages Reconciliation Process

Role: Developer
Technologies Used: Java, JSP, Servlets, Oracle Database, JavaScript
Team Size: 2
Duration: Jul 2019 - Sept 2019
Client: IDBI Bank
Description: This module is used by CSC (Centralized SWIFT Cell) users at IDBI BANK for reconciling outgoing SWIFT transactions through middleware with incoming acknowledgments from Swift Alliance application.

3) i@Connect – MSWIFT & CSFMS Finacle 10x Migration

Role: Developer
Technologies Used: Java, JSP, Servlets, Oracle Database, PL/SQL, Tomcat Server
Team Size: 4
Duration: Mar 2019 – Present
Client: IDBI Bank
Description: Contributed to the migration of MSWIFT & CSFMS applications from Finacle 7x to Finacle 10x version on production. Implemented changes at the application and database level for Finacle 10x. Developed Java API for getting the message structure from the Finacle 10x system & formatted it as per the SWIFT message structure. Modified SQL queries & procedures for proper processing of data in middleware.

4) Trade Finance Middleware Applications (MSWIFT & CSFMS)

Role: Developer
Technologies Used: Java, JSP, Servlets, Oracle Database, PL/SQL, Tomcat Server
Team Size: 4
Duration: Dec 2018 – Feb 2019
Clients: IDBI Bank, BBK Bank, SIDBI Bank
Description: MSWIFT and CSFMS are used as a middleware application for International SWIFT transactions and Domestic LC/BG transactions respectively.

ACHIEVEMENTS

- Appreciated by the NPCI for the development of NACH API Services for the IDBI Bank.
- Appreciated by the IDBI Bank for the development of the SWIFT Messages Reconciliation System.

EDUCATION

- **B.E (Computer Science)** from Mumbai University, in 2018 with 6.09 CGPI.
- **HSC** from Maharashtra State Board, in 2014 with 66.15%.
- **SSC** from Maharashtra State Board, in 2012 with 86.55%.
