 - Make web API docs
-

PROJECTS HANDLED IN In2IT TECHNOLOGY

1- Project Name: Cisco CDR(Call Detail Record) Service

Role- Backend Developer(Created Alone)

Environment - My sql,spring,Rest API

Tool used – Spring Tool Suite

Description-The project is all about getting call Records(received calls,dialled calls,missed calls) of Cisco phone using android mobile app.User can see all dialled calls,missed calls and received calls on mobile. When Cisco Unified Communications Manager places or receives a call, the system generates a CDR record when the call terminates.The created api in the service fetch that call record from Unified Communications Manager,save it into database and display that record on screen according to cisco extension number.

2- Project Name: Cisco Attendance Record

Role- Backend Developer(Created Alone)

Environment - My sql , spring , Rest API

Tool used – STS for Backend coding and Cisco softphone to check interface

Description-Attendance record is a service which is created for Cisco phone .The service is being created to

integrate cisco phone with zoho service to record attendance of employee.The service has two features

CheckIn and

CheckOut.

3- Project Name: (AWS & Azure & vmWare) Cloud Origin

Environment - **Role**- Backend Developer as well as front end developer(Created Alone)

My sql , jsp, javascript, spring

Tool used – STS for Backend coding and Cisco softphone to check interface

Description-AWS CloudFormation is a service that helps you model and set up your Amazon Web Services resources so that you can spend less time managing those resources and more time focusing on your applications that run in AWS.The main task of the project is to integrate our web application with AWS to create EC2 instance. To create a stack, AWS CloudFormation makes underlying service calls to AWS to provision and configure your resources. When you use that template to create a stack, AWS CloudFormation calls the Amazon EC2 create instance API and specifies the instance type.Create VM for azure as well as VMware vSphere in the same project.

TRAINING UNDERTAKEN

Institute:	Ducat
Location:	Ghaziabad
Period:	6 month
Description:	Core java+ advance java+ Hibernate framework

ACADEMIA

- ❖ **B.TECH** with specialization in **computer science and engineering** from **Krishna engineering college, GHAZIABAD, UTTAR PRADESH Technical University (UPTU), U.P** in 2016 with **63.24 % marks**.
- ❖ **XII** from **S.D.R.R public school, CBSE board** in 2012 with **68 % marks**.

❖ X from **Silver Bells Public School**, CBSE board in 2010 with **66.5 % marks**.
