

Work Profile

Name: - Nivetha Viswanathan
BTech

Skillsets / Expertise

Total Work Experience (Yrs) : 2+

- a. Skills / Experience / Exposure
 - i. Analysis, design, development, documentation, implementing and testing of software systems
 - ii. Core JAVA, C, Photoshop, C++, Angular, Java, C, C++, HTML, CSS, Bootstrap, SQL
 - iii. Performance Engineer (Programmer Analyst) specializing in development and optimizing performance of the application.
 - iv. Full Stack Developer - Experienced with both back and front end in developing Performance tool.
- b. Experience / Exposure
- c. Achievements / Certifications
 - Core JAVA, C, Photoshop, C++

Work Experience

1. Project: - Cognizant

My Responsibilities in the project include: -

- 1. Coding
- 2. Unit Testing
- 3. Performance Tool Development
- 4. Worked as a Full Stack Developer in development phase of Performance Tool Web Application
- 5. Developed UI Screens using Angular 2+
- 6. wrote services using REST API on Java for back end using Spring Boot
- 7. Tech Used: -
 - a. Angular(front end)

- b. Java(back end)
- c. mongoDB

2. Project: - KAIZEN Insurance

My Responsibilities in the project include: -

1. Coding
2. Unit Testing
3. Performance Optimization (Production Issue)
4. Completed entire performance optimization
5. sorted out memory leak
6. Resolve burning production issues and tuned for better performance at the database as well as in architecture design

3. Project: - FORD VSEM

My Responsibilities in the project include: -

1. Coding
2. Unit Testing
3. Perf Engineering
4. Development and Performance Optimization
5. Worked parallely in both development phase and optimization of the application
6. Developed Performance Logging Utility for Application Monitoring for desktop application
7. Tech Used: -
 - a. Java (Front end) in Teamcenter
 - b. C++ (Back end)
