

## .Net Developer

**Name:** Mr. Prashant Digambar Yerekar.

**E-mail:** [prashanty263@gmail.com](mailto:prashanty263@gmail.com), [prashanty263@outlook.com](mailto:prashanty263@outlook.com) **Mobile No:+**  
**91 8369459461.**

---

### Professional Summary

- 5.9 years' experience in Development, Implementation of Web based application.
- Ability to learn new technology.
- Knowledge of MS SQL Server and IIS server.
- Interested to work with **Angular 4, 6**, Typescript, MVC, and Web API, MS SQL.
- Currently work at **Emerson Electric India, Hinjawadi, Pune** from Nov-2019 to till date.
- Previously Work at **Melstar Information Technology, Mumbai** from March-2019 to Oct-2019.
- Previously Work at **PRINCE PIPING SYSTEMS, Mumbai**. From Dec-2015 to Feb-2019.
- Previously work at **Epsilon Technologies, Thane** from May-2014 to Oct-2015.

### PROJECTS

# Project	
Project Name:	IMPORT-EXPORT Management Systems.
Description:	The objective of this engagement is to build a web-based application for import export for shipment.
Technologies:	Angular 6, ASP.NET WEB API, Bootstrap.
Database:	MS SQL Server 2017.
Responsibilities:	1) Used database objects like Tables, and Stored Procedures involving Joins and UDFs (User Defined Functions).
IDE	Visual studio 2017, MS SQL Server 2017.

# Project	
Project Name:	Invest Fund.
Description:	The objective of this engagement is to build a web-based UNICEF IF application to enable Natcom & Country Office users to ask for funds from PFP. Once a request is raised, it gets verified by various Natcom/Country Office users and then sent for approval and verification for different users in PFP. The progress of the raised funds are tracked after 6 months, 12 months and 36 months. The system needs to track the whole life cycle of IF funds for different countries and track their finance data and compare forecasted and Actual data by calculating variances.
Technologies:	AngularJS, ASP.NET MVC, Bootstrap.
Database:	MS SQL Server 2017.
Responsibilities:	2) Used database objects like Tables, and Stored Procedures involving Joins and UDFs (User Defined Functions).
IDE	Visual studio 2017, MS SQL Server 2017.

# Project	
Project Name:	Customer Relationship Management System (CRM).

Description:	<p>This is a Single Page Application (SPA) for customer and vendor. In this Web application that has all the capabilities of handling customer purchase order, return order, complaint order. In this application facility to input the order for different item class like fitting, trading, pipes and showing current status of order. Report related to customer like customer ledger, pending order, overdue summary. Customer can view dispatch detail. Customer can easily analysis year wise sales product and order in hand. Export data to excel. This web application integrate with Microsoft Dynamic Navision using its web services.</p>
Technologies:	Angular 6, ASP.NET Web API, Bootstrap.
Database:	MS SQL Server 2016.

Responsibilities:	1) Used database objects like Tables, and Stored 2) Procedures involving Joins and UDFs (User Defined Function 3) Developing new applications within an environment as well as maintaining and supporting existing applications. 4) Responsible for project deployment on test and production environment.
IDE	Visual studio 2017, Visual Studio Code, MS SQL Server 2016, Microsoft Dynamic Navision.

# Project	
Project Name:	Quality Control.
Description:	<p>Quality Control web application used get the parameter of product after product finished and check quality of product Variation of its original parameter. This application used get live reading of product when manufactured at plant.</p> <p>If parameter does not match min max value then quality controller change the process routine. This application very helpful at plant to do paperless work also.</p>
Technologies:	Angular 2, Asp.Net Web API, Bootstrap framework, HTML.
Database:	MS SQL Server 2016.
Responsibilities:	1) Responsible for Database designing 2) Used database objects like Tables, and Stored 3) Procedures involving Joins and UDFs (User Defined Function 4) Developing new applications within an environment as well as maintaining and supporting existing applications. 5) Responsible for project deployment on test and production environment.
IDE	Visual studio 2017, Visual Studio Code, MS SQL Server 2016.

# Project	
Project Name:	Weight Bridge Management System.
Description:	This is a Windows base application. In this application reading the weight on bridge, after that user post the data in Navision.
Technologies:	C#, web service.
Database:	MS SQL Server 2016.
Responsibilities:	Gathering requirements and enhancements. Involved in design and development of windows form.
IDE	Visual studio 2017, MS SQL Server 2016, Microsoft Dynamic Navision.

# Project	
Project Name:	PRINCE PIPING SYSTEMS App.
Description:	This is android app showing various product information with specification. Display customer name according state and district wise. In this app include Information about our group like, infrastructure, our motto,notification,feedback query ,share app.
Technologies:	Android, Web services
Database & IDE:	MS SQL Server 2016, Visual Studio 2017, Android Studio.

#. Project	
Project Name:	Order Approval Management System.
Description:	This web app application showing those order numbers come for approval according to location wise. In dashboard display total number pending order as well as today's approval order. In this application calculate difference of Various product category after increase and decrease in quantity.Admin user can approve the order.
Technologies:	AngularJS Framework, Asp.Net MVC4, Web Service, Bootstrap framework, Ajax.
Database:	MS SQL Server 2016.
Responsibilities:	Gathering requirements and enhancements. Involved in design of the database and uploading data Involved in design and development of interactive user interface web pages
IDE	Visual studio 2017,Ms Sql Server 2016, Microsoft Dynamic Navision.

# Project	
Project Name:	Report System.
Description:	This web application helps to manage the various department data and easily get data in excel format. This application use to user can upload data like weekly, monthly, yearly according target to sales person. Get the price list various Item and also maintain expenses marketing.
Technologies:	ASP.NET MVC 4, Bootstrap, Web Service, query, Ajax.
Database:	MS SQL Server 2012.
Responsibilities:	Developing ASP Pages.
IDE	Visual studio 2010, MS SQL server 2008, Dev. Express.

# Project	
Project Name:	LegaVue Portfolio Management System.
Description:	Through the use of LegaVue, aims to achieve a truly paperless environment through the complete, cycle of Portfolio acquisition, notices, and recovery management, case monitoring and extensive reporting/MIS.
Technologies:	ASP.NET MVC 4, Bootstrap, Web Service, query, Ajax.
Database:	MS SQL Server 2008.
Responsibilities:	Developing ASP Pages.
IDE	Visual studio 2010, MS SQL server 2008.

# Project	
Project Name:	Audit Management System.
Description:	Implementation of this system is a result of long and detailed efforts of a team of Officers and Users across various Departments. Through the use of System, Bank aims to achieve a truly paperless environment through the complete cycle of auditing, compliances, closure and reporting. All data / Reporting requirements are thus provided through appropriate " <b>Views</b> " and " <b>Export to Excel</b> " features. It is envisaged that the implementation of System will help Bank in further strengthening and effective control of systems.
Technologies:	ASP.NET MVC 4, Bootstrap, Web Service, query, Ajax.
Database:	MS SQL Server 2008.
Responsibilities:	Developing web pages, Database.
IDE	Visual studio 2010, MS SQL server 2008, SAP Crystal Report.

# Project	
Project Name:	Inventory Management System.
Description:	Stationary Management Application helps <b>Bank</b> to cost effectively manage and control inflow and outflow (i.e. distribution to branch and regional offices) of various stationary items from the central office. The system is very user friendly i.e. All the process activity is menu based.
IDE:	Visual studio VB 6.0.
Role:	Maintains and Manual Testing.

# Project	
Project Name:	Nutrition Management System
Description:	This web application helps to management of patient records and generate chart Report according to patient Observed by doctors.
Technologies:	ASP.NET, HTML, CSS.
Database:	MS SQL Server 2012.
Responsibilities:	Database Design, Developing ASP Pages.
IDE	Visual studio 2010, MS SQL server 2008, Dev. Express.

# Project	
Project Name:	Document Management System
Description:	This web Application helps to manage various document uploaded by Admin Users. Showing all of document to Admin users by accepted by it board directors and showing status of Document. Get all document from easily like download feature.
Technologies:	ASP.NET, HTML,CSS, Bootstrap
IDE:	Visual Studio 2010, MS SQL SERVER 2008, Dev. Express.
Role:	Developing ASP Page using bootstrap, Database Design.

Details	
Extra-Curricular Activities:	<ul style="list-style-type: none"> <li>Completed Microsoft .Net Framework at NARESH Technologies, Hyderabad.</li> <li>PLC at Sage Automation Thane (w).</li> </ul>

## TECHNICAL SUMMARY

Skills:	
Programming Languages:	C#.
Web Technologies:	Typescript,Javascript,Jquery,HTML,HTML5,CSS,
Database & Sever:	MS SQL Server, IIS Server
Framework	Angular 2, 4, 6, Bootstrap, ASP.NET MVC, WEB API.
Reporting Tool	SSRS(MS SQL Report Builder)
IDE and Tools	Visual Studio 2017, Visual Code, MS SQL SERVER 2017, POSTMAN, FIDDLER, Android studio.
Basic knowledge	Android, Xamarin android, VB, Mobile application development.

**Education Detail:**

Degree	College	University	Percentage	Class
M.C.A.	GESCOE, Nasik	PUNE UNIVERSITY	61.76	First Class
BSC(C.S.)	Mayur Infotech,Nanded	SRTMU NANDED	65.87%	First class
H.S.C(SCIENCE)	S.S.H.M.V ,Bhokar	LATUR BOARD	56.67%	Second class
S.S.C.	S.S.H.M.V ,Bhokar	LATUR BOARD	62.66%	First class
