

**Dharmendra Sharma**

---

**PROFESSIONAL SNAPSHOT**

---

- Networking Skills:
  - Static Routing, Dynamic Routing (RIP, EIGRP, OSPF), Default Routing, ACL, DHCP, NAT/PAT
  - VLAN, Inter VLAN, Port Security, VTP, STP, Trunk Port
  - Working on the Cisco-RJIL (Reliance 4G)
  - Configuring CISCO, HP, Fortigate devices Routers, Switches
  - Working on Cisco Routers ( 901, 920-I, 920-O, 903)
  - Working on Huawei Switches 5700 Series
  
- Cloud Based Skills:
  - Knowledge of Cloud Computing (AWS), concepts, service models, deployment models.
  - Hands on - IAM, Group, User, Create & Implement the Policies
  - Worked on EC2, EBS, S3, CloudWatch, Autoscaling, VPC, R53
  - Installation and maintenance of the Network equipment
  - Troubleshooting problems regarding Network at client End
  - Worked on the feasibility, LOS, R.F Survey

---

**WORK EXPERIENCE**

---

<b>Client</b>	:	<b>Sify Technologies</b>
<b>Role</b>	:	Network Administrator
<b>Description</b>	:	The project involves configuring, troubleshooting activity of network consisting mainly of Datacenters in Sify ISP.

**Key Deliverables:**

- Converged Networks, All IP Network and, IPv4/IPv6
- Responsible for monitoring and handling problem related to Router Cisco, HP and fortigate router and switches.
- Good hand in configuration of Cisco. HP, Fortigate Router and switches
- Working on Protocol BGP, VLAN, OSPF, EIGRP, RIP
- Handling Microwave equipment configuration maintenance
- RF survey on new site and sharing site

**CREDENTIALS**

---

**EDUCATION:**

Bachelor of computer application from Punjab Technical University in 2013.

**Academics:**

- **X** - CBSE in 2009 with 69.06%
- **XII** - CBSE in 2011 with 59.06 %

**Technical:**

- **Operating System** : Windows, UNIX, Cisco IOS-XE
- **Cisco Router** : 881, 2600, 2900, 3900, 4300
- **Cisco Switches** : 2960, 3560, 3750, 3850,
- **Routing Protocols** : Static, EIGRP, OSPF, PPP
- **Switching Technologies** : VLAN, VTP, STP, HSRP, Ether channel, 802.1Q,
- **Other Technologies** : VPN, QoS, , IPSec, DMVPN, NAT, Net Flow
- **Management** : SNMP
