Objective

To work in a challenging and dynamic environment, to keep adding value to myself and simultaneously contribute to the growth and success of the organisation,

Professional Experience: 2 Year & 8 Months

Currently working as Team Procurement in “**Urjakart.com(SAR Group)**”

Worked as Procurement executive in “**Urjakart.com**” an E- commerce organization

Company Profile-

Urjakart.com (Deals in Industrial Supplies B2B Online and Offline) is responsible for end-end supply chain and order fulfilment activities. At presents, hosts over 200 plus brands, 200 plus suppliers and 50 Thousand plus online products.

Responsibilities-

- Recent self-achieved targets- met the optimum level of cost in procuring of material with the self-coming business from Vendor's side Procurement of max 3Lakhs/day using the model of JIT, Dropship & One ship.
- Procurement planning, target to procure products from the vendor in less price and with minimum Lead time. Resolve the issues of Vendor for proper flow of Procurement.
- Initiated a 'Reverse Supply Chain' for the items and 'Return to Vendor (RTV)' as in case of Engineering tools or product not working or damaged transit.
- Actively involved in inventory mapping, planning, testing and introducing new ERP for effective supply chain and procurement operation.
- Managing the Overall Inventory under 8 categories with the help of creating a layout and space management like – Safety & Security Equipment, Power & Hand Tools, T&M, Industrial and Electrical etc. This provides founder the accurate knowledge of 95% of Inventory and also helps in liquidating the orders as the model for their business is to work on zero Inventory levels in order to block zero money in stockings.
- To Maintain TAT of order processing from order to delivery to customer and also RTV of all QC rejected items back to seller within stipulated time.
- Looking into returns, analyse and check the reasons for returns and get them resolved and saleable returns get placed back in the inventory and to get dump damaged/useless items.
- To improve customer experience, coordinate with CRM-team and implement processes in operations activities.
- Performing day to day warehouse activities, such as inbound / outbound operations and ensure that they are properly and timely executed according to the procedures in place.
- Control, update and maintain records for all stocks inventory and the movement of inbound/outbound cargos.
- Stock Reconciliation and stock audit.

- Excellent working knowledge on ERP system (vinculum).
