Work Experience

Full Stack Developer

Newel Technologies

March 2018 to Present

Full Stack Developer

Technology & Tools

March 2018 to Present

30

Activities

Understanding and clarifying all requirements with Business Analyst and Project Manager.

Making FrontEnd with Angular JS Framework and making logic driven API in Java using spring boot framework.

Deploying the code on Development and Production on Apache Server.

Technology & Tools Spring Boot, Java, AngularJS, Java Script, Restful Web Service, HTML.

Project Name Integra Connect

Organization Chenoa IT

Project Synopsis

The project a HIE provides platform for EHRs with ability to seamlessly integrate with other standardized system or integrate data from across multiple EHR.

Software Developer

Chenoa IT

May 2017 to March 2018

8

Activities

Understanding and clarifying all requirements with client, impact analysis and generating Approach Documents.

Following Test Driven Development

Implementing micro Services using spring boot framework and controller services using spark framework.

Writing a mirth channels which will consume the services

Deploying the code on Development and Production on Apache Server

Ensuring Application is HIPPA Compliant this involves.

- Converting application https from http using certificates.
- Moving all application logs to S3 bucket from server.

Technology & Tools MIRTH, Spring Boot, Spark, Java, Java Script, Restful Web Service

Project Name Integra Connect

Organization Chenoa IT

Project Synopsis

The project a HIE provides platform for EHRs with ability to seamlessly integrate with other standardized system or integrate data from across multiple EHR.

Duration May 2017 Till March2018 Role and Team Size Software Developer 8

Project Name MediOp

Organization Chenoa IT

Project Synopsis

Search Engine Web Application to help provide Patient and Medicine related information to Insurance Company, Patient and Providers

Software Developer

Chenoa IT

November 2016 to March 2018

Software Developer

Technology & Tools

February 2016 to April 2016

6

Activities

Understanding and clarifying all requirements with client, impact analysis and generating Approach Documents.

Following Test Driven Development

Deploying the code on Development Server.

Technology & Tools Angular 4, spring-boot, Spark, Java, Java Script, Restful Web Service

Project Name HR Automation

Organization Chenoa IT

Project Synopsis

The project involved automation of the HR work such as updating database for new resource, assigning employee to the new project, providing KRA to the employees, etc.

Software Developer

Technology & Tools

November 2015 to January 2016

2

Activities

Understanding and clarifying all requirements with Human Resource and generating Approach Documents.

Working for a user-friendly UI to which non-technical person can understand.

Working for efficient and reusable code in the project.

Technology & Tools Javascript, c#, asp.net, MVC Framework.

Project Name Nielsen

Organization Ugam Solutions

Project Synopsis

It is a web based Survey Application which is developed only for Canon which is a live survey of all products of Canon being displayed along with its features. Used for capturing data correctly in the database provided by the user and generates reports in graphs. Programmer

Ugam Solutions

September 2014 to June 2015

Technical Skills:

Operating Systems Windows and Linux

Programming Languages Core Java, J2EE

DBMS Sql Server, MS SQL, PostgreSQL.

Client Side Technologies Angular 4, HTML, JavaScript, jQuery

Web Service Framework Spring Boot, Spark Framework

Programmer

Technology & Tools

September 2014 to June 2015

12

Activities Coding in quantum (extension of C++) and making reports.

Technology & Tools Quantum, SPSS.

Education

PG-DAC

CDAC - Bandra, MAHARASHTRA, IN

February 2016

BE in Computer Engineering

K.C.College (Mumbai University) - Mumbai, Maharashtra

August 2014
