4. EXPERIENCE

A result oriented professional with 1.4 years of experience in IT Industry as Software Developer.

4.1 VCIS TECHNOLOGY. [JUNE, 2016 – SEP, 2017]: JAVA DEVELOPER

VCIS Technology started with a small team of IT professionals of well qualified web and app developer those obsessed with design and latest technology. We develop products on various technologies such as Java, HTML, PHP, Android , and IOS .
I worked with different-different things like Web-API, Testing and Maintenance on old projects. Worked on Web-API using Spring Framework. Worked on testing tool named JMeter for the load and website performance testing reports. And from last 7- 9 months worked on educational project for various schools. Basically it's a school CMS. This is Struts Hibernate Tiles frameworks based project. I worked on Fees, Exams, Hostel, Library, Transport and many more modules in this project.

4.2 PROJECTS

4.2.1 - SCHOOL CMS

About : This is a educational project. And I worked on Fees, Exams, Hostel, Library, Transport and many more modules like Events, Circulars etc. in this project.

Technologies Used:

- Language   JSP, HTML5, CSS, JAVA SCRIPT, AJAX, Bootstrap
- Framework   Struts, Hibernate, Tiles
- Database   MySQL

4.2.2 - SPRING API

About : I worked on Spring Hibernate API for the current developing project i.e. School CMS.

Technologies Used:

- Language   JSP, HTML5, CSS, JAVA SCRIPT, AJAX
- Framework   Spring, Hibernate
- Database   MySQL

5. - OTHER PROJECTS

5.1 - ARYAN HI-TECH SURVEYING SYSTEM

(http://aryansurvey.in/, http://aryansurvey.com)

About: As per client request, I have developed this website. The user can see the product & product details as desired. User can see the company details. User can contact to the responsible person for any query about the product by using contact us form on the website.

Technologies Used:

Language   HTML5, CSS, JAVA SCRIPT

5.2 - FASTERPOST

About: The user comes to our site for selling and purchasing the things which user wants. This website will work just like OLX. The user can sell or buy the required things as per need. The user can search posted ads and post their own ads at the website. The user must have to logged on for view ad or post ads on the website. The new user can register themselves on the website and the existing user can login by submitting their details i.e. email and password.

Technologies Used:

- Language   JSP, HTML5, CSS, JAVA SCRIPT, AJAX
- Framework   Spring, Hibernate
- Database   MySQL

5.3 - NCR YELLOW PAGE

About: In this we provides the facilities to search nearby Malls, Domino's, McDonalds, CCD's, CAUSTA's and BARISTA's according to the user search. The objective of this project is that there is no requirement to any user to go at different - different website for searching enjoying places.

Technologies Used:

- Language   HTML 5, CSS, JAVA SCRIPT, PHP
