## KEY PROJECTS

- ♦ **HexaView.**
  In this project, we have implemented a dashboard and other interactive web pages where we take data from different sources like TFS, JIRA,JENKINS and Sonarqube and display them in the interactive way using echarts where the information regarding the performance of the projects is being displayed in the form of echarts (linecharts, gaugecharts, bulletcharts, radarcharts etc.) .This information helps the management to track down the performance of the projects within a company at Project/Program/Portfolio level.

  **Technology** : Angular 4, Typescript, node.js, Sql server 2012.
  **Software Development Approach:** Agile Methodology.

♦ **Admin Application.**
In this project, we have implemented a dashboard and other interactive web pages which contains all the information like master data in the organization and different types of reports. The application can be viewed as per the authorized access to the users.

**Technology** : MVC, Sql server 2012.
**Software Development Approach:**  Agile Methodology

♦ **ORYX.**
ORYX project comes under account named as International SOS (ISOS). It provides medical services to Singapore based client during natural calamities like earthquake, tsunami, floods etc. Medical services includes hiring of medical staffs, their training and allocations to different locations based upon their requirement.

**Technology** : C#, Asp.Net, Javascript, Sql  Server 2012, SSRS.
**Software Development Approach:** Waterfall Model.

♦ **Rent Management System.**
It covers the complete transaction between landlord and company for whom the area is been given on rent. A systematic contract between them is made.

**Technology** : VB.Net, Asp.Net, Javascript, Sql Server 2012.

♦ **Internship: Panoramic Universal Pvt. Ltd, Mumbai.**
Implemented a module named as One Day picnic in website named Travelhot.com. It covers the online booking transaction for one day picnic for the resorts situated at Lonavala and Karnala.

**Technology** : VB.Net, Asp.Net, Javascript, Sql Server 2012.

♦ **Final Year Graduation Project: Biometric Privacy using Visual Cryptography.**
The objective was to provide enhanced security and privacy to authorization and authentication process using fingerprint images.

**Technology** : C#, Asp.Net, Javascript, Sql Server 2008.

## ACTIVITIES

**Trainings attended in the Organization**
♦ Agile Scrum Training.

**Co-Curricular Activities**
♦ Completed diploma in Asp.Net and Sql from Seed Infotech, Vashi, Navi Mumbai.

**Extra-Curricular Activities**
♦ Participated in State Level Paper Presentation Event.
♦ Participated in C and C++ coding technical event.
♦ Selected for final round from college for inter college Seed Infotech's IT idol competition held at Pune
